VII、Operation Instruction

1. Charging

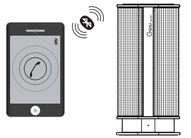
① Turn the ON/OFF button to ON to start fast charging. Turn off the device to start normal charging.
② The red indicator will steadily on when charging and goes out after fully charged.
③ Please charge the device before using.
④ Please turn off the device when not in use to extend the lifespan.

2. Bluetooth Paring

① Please make sure your device has sufficient power.
② Turn on the device. The blue indicator will flash to inform you Bluetooth is ready for pairing.
③ Enable your Bluetooth of your playback device. Scan and select Gsou U200 to pair the speaker. Input 0000(four zeros)if required.
④ The blue indicator will steadily on after pairing successfully.
⑤ Now launch your player to enjoy fantastic music.
⑥ Touch the touch key previous/next track, volume up /down, play/pause to operate your speaker.

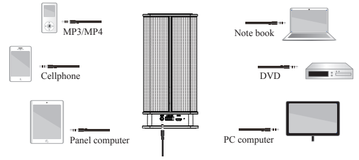
3. Hand free speakerphone

①Short press hand free key to answer the incoming call and short press again to hang up.
②Long press the hand free key to reject incoming call.



4. Aux in

① Use a 3.5mm audio cable to connect the speaker to another audio source.The Bluetooth audio streaming will be automatically interrupted as the speaker switches to AUX function.
② Short press "M/⏻" key to switch to Bluetooth mode.



5. USB sound card

① Turn on your speaker
② Connect your speaker to the USB port of your PC. (One terminal connect to micro USB port of your speaker and another terminal connect to USB port of your PC).The device will install automatically.
③Then launch your player to enjoy fantastic audio. If there is no audio come out from the speaker, Please select "USB Audio Device" as the default sound card in the property of audio settings.

6. NFC pairing

① Please make sure your playback device has NFC function.
② Enable your NFC
③ Put your playback device closes to "))NFC((" key area. Select "YES" when it popup whether to pair. (The paired devices will pair automatically for future use when the Bluetooth are enabled, No need to pair every time)
④ The blue indicator will steadily on after pairing successfully.
⑤ Put your playback device closes to "))NFC((" key area to disconnect the two devices.

VIII、Troubleshooting

1. Unable to pair to device

Make sure your speaker is in pairing mode and follow the operation of Bluetooth pairing to pair again.

2. Speakers works with my smart phones but not my computer

The Bluetooth adapter in your computer needs to support the Stereo Bluetooth profile A2DP(Advanced Audio Distribution Profile), To Ensure the Bluetooth adapter is functioning properly, update the drivers to the latest version.
Please select "Bluetooth AV audio" in the property of audio settings as default audio output device.

3. The audio is on and off after pairing.

Please make sure:
* There is no barrier between the two devices, e.g. wall, glasses.
* The Bluetooth distance is limited to 10 meters.
* Your playback device has sufficient RAM. We strongly suggest you to clean up your smart phones, tablet PC to release enough space for your player. Or simply restart your smart phone and tablet PC.
* Your playback device is kept a certain distance to a wireless WIFI or other 2.4GHz wireless devices.

Bluetooth® compatibility note:U200 can be compatible with most of Bluetooth® devices with the different brands and models, but some individual Bluetooth® devices may have compatibility problem with the U180. If you need further assistance ,please contact our technical customer service: 86-755-83222871.

IX、FCC Warning ⚠

•This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions

(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

•Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

FCC RF warning statement: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure
